About

At the Cotton Museum in downtown Memphis we're rediscovering the American South and telling the dynamic story of the plant that built the Bluff City. Memphis was established in 1816 as a shipping port for cotton and was a major hub in the slave trade. Downtown streets once bustled with cotton related commerce in a neighborhood called Cotton Row. The influence of the industry and the traditions of the people who were gathered around it are forever woven into the cultural fabric of our city.

Admission includes access to the main exhibit on the legendary trading floor of the Memphis Cotton Exchange as well as the Cotton Row Walking Tour, an audio tour of the historic neighborhood surrounding the Museum. Tours are self-guided. We suggest you allot at least an hour for your visit.
